

Ryan Demboski

SOFTWARE DEVELOPER

OBJECTIVE

I'm driven to solve challenging problems, so others don't have to. By building efficient automation, seamless integrations, and intuitive applications, my goal is to create software that enables people to focus more on what matters – not on the tools they use.

EDUCATION

Northern Arizona University
Flagstaff, AZ
BS in Computer Science

EXPERIENCE

May 2023 - Present
Junior .NET Developer • Northern Arizona University

May 2022 – January 2023
IT Systems Developer (Intern) • W.L. Gore & Associates

2025
Freelance .NET Development • Thermo King West

PROJECTS

Ellucian CRM Advance (Dynamics 365) • University-wide Project Launch

NAU Azure Migration • On-prem infrastructure, Azure SDK in specific applications (blob storage, key vault, authentication, and more).

SharePoint + Microsoft Graph Reporting Tool • Thermo King West
